

Assignment: [Tutorial] Working with Codio

Due Date: June 8th by 11:59pm

Points: 10

Description: In this tutorial, we will explore using the Codio editor features that you will be using for the rest of the course.

Overall Summary:

The screenshot shows the Codio interface with the 'Working With Codio' assessment page. The left sidebar shows the file tree with 'Working With Codio (master)' and its subfolders: 'guides', 'explore-codio', '.gitignore', '.settings', and 'README.md'. The main content area shows the assessment details for 'Working With Codio' from Nina Boonyasiti. The progress bar indicates 100% completion. The table below shows the assessment details.

Section	Assessment Name	Points	Type	Correct
Working With Codio	Example Challenge	10	★	✓

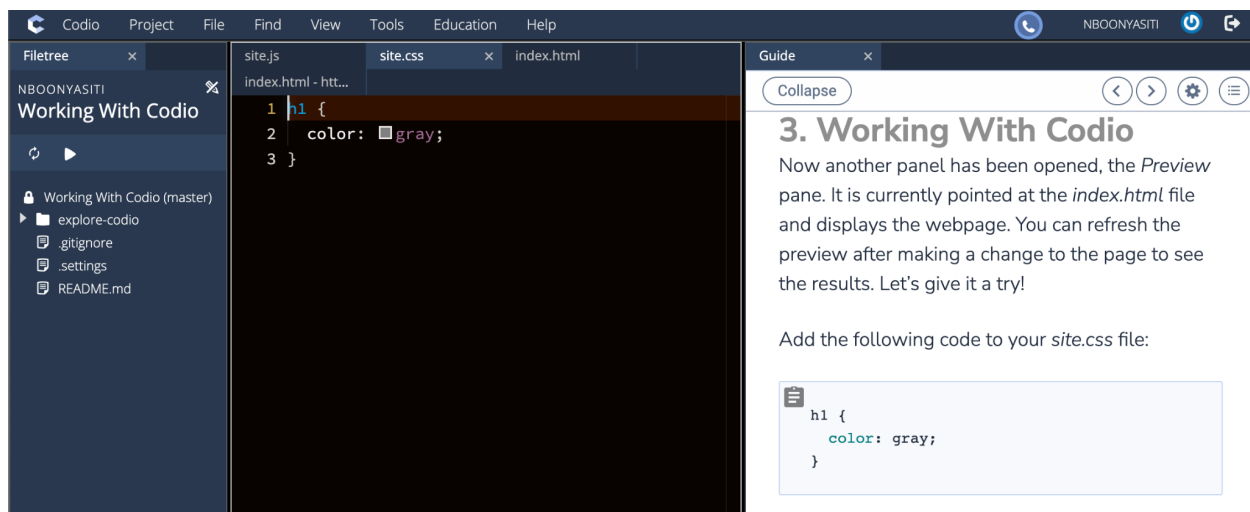

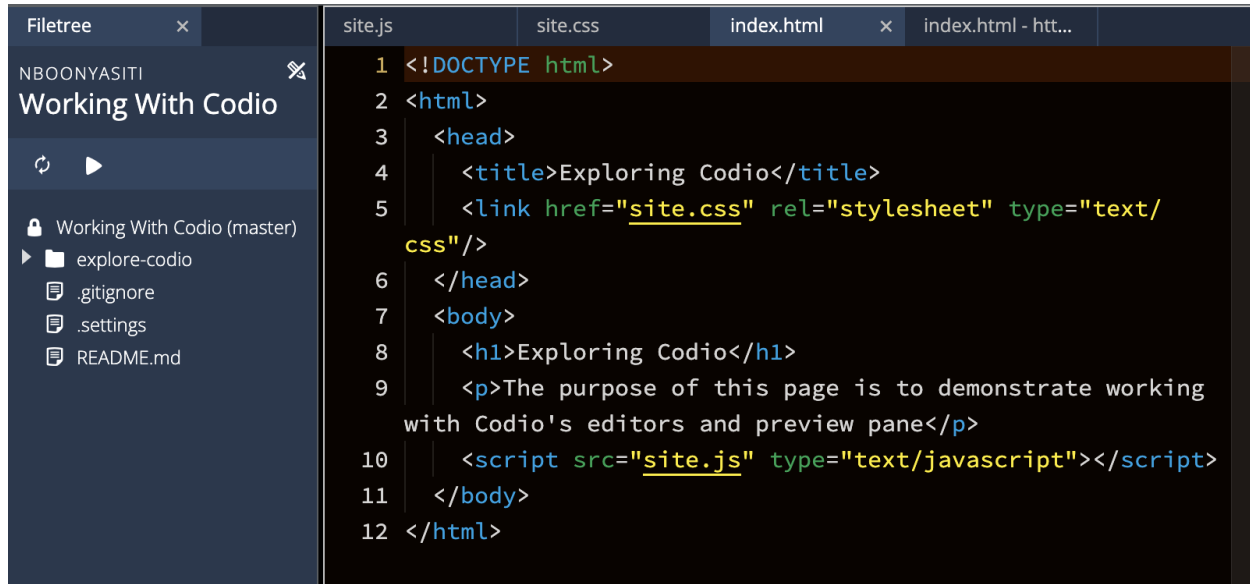

Date: Jun 10th 2022 2:28pm (UTC -05:00) America/Chicago

Question: Make the changes to *site.css* suggested above.

Student Submission:

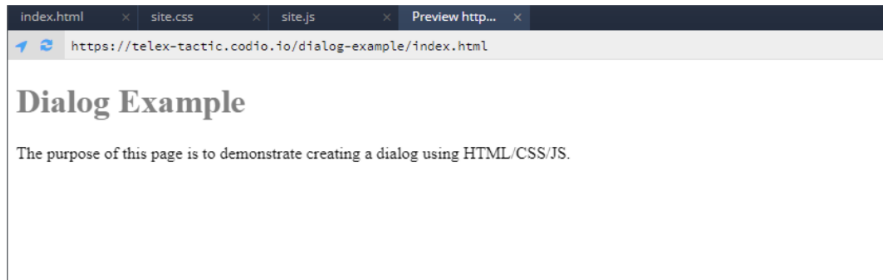

The screenshot shows the Codio interface with the 'Exploring Codio' page. The left sidebar shows the file tree with 'Working With Codio (master)' and its subfolders: 'explore-codio', '.gitignore', '.settings', and 'README.md'. The main content area shows the title 'Exploring Codio' and the text: 'The purpose of this page is to demonstrate working with Codio's editors and preview pane'.

Index.html and site.css - All code on index.html was provided. In this tutorial, we familiarize ourselves with Codio and change the text color of the heading in index.html through site.css.

Note - Codio makes use of an autograder when there are tutorials that provide snippets of code, such as in the above screenshots.

3. Working With Codio

Most Codio tutorials will also periodically ask you to check your work. This can help keep you from missing a step along the way, and will typically offer some degree of feedback.

Example Challenge

Make the changes to *site.css* suggested above.

Check It!
